

# Heavy Duty Journeyman Technician

At Volker Stevin, our employees are key to the success of every project, contributing to the legacy we build within the communities we serve. If you're ready to take on a challenging, hands-on role where safety, teamwork, and growth are paramount, we encourage you to join our dynamic team. Together, we'll continue to set the standard for excellence in construction.

The Heavy-Duty Journeyman Technician is responsible for diagnosing, maintaining, and repairing mechanical and electrical systems on road construction equipment and light fleet trucks. The role focuses on ensuring equipment operates safely and efficiently by reducing downtime and minimizing repair costs. This includes conducting thorough inspections, identifying and resolving issues, and performing preventative maintenance to maximize equipment performance and reliability.

## How You'll Add Value

- Perform routine servicing tasks, including fluid changes, brake replacements, hydraulic hose replacements, and similar maintenance to ensure equipment reliability and efficiency
- Conduct maintenance and repair tasks on on-road vehicles, including light and heavy-duty fleet trucks, ensuring they meet safety and operational standards
- Diagnose, service, and repair mechanical and computer electronic controls, air brake systems, hydraulic systems, and pneumatic systems
- Inspect, repair, and adjust gasoline, propane, and diesel-powered units
- Conduct routine maintenance checks, including fluid levels, hoses, belts, brakes, tires, and clutches
- Maintain accurate service logs, maintenance records, work orders, and timesheets
- Keep tools, equipment, and work areas clean, organized, and functional
- Ensure fleet equipment repairs are completed promptly to minimize downtime
- Identify, order, and manage required parts and supplies following company processes
- Perform basic welding repairs, oxy/acetylene torch cutting, and minor fabrication tasks
- Maintain a safe and clean workspace, adhering to provincial, local, and company safety standards
- Use equipment like overhead cranes, mobile cranes, and forklifts to support repair tasks
- Diagnose and repair hydraulic and electrical circuits efficiently
- Investigate and address equipment problems to minimize the impact on crew production
- Assist with mentoring apprentices and junior technicians
- Work independently in shop or field environments and adapt to new methods, materials, and processes with supervisor approval

## What You Bring

- Possession of a valid CVIP inspection license or the ability to obtain one is required
- Class 1 (preferred) or Class 3 with air brake endorsement. Valid, clean driver's abstract
- Extensive experience in all aspects of repair and maintenance for highway maintenance equipment
- Demonstrated abilities in diagnosing, repairing, and maintaining various types of equipment
- Proficiency in using diagnostic equipment, conducting repair searches, and performing electronic diagnoses
- Strong focus on delivering high-quality work with meticulous attention to detail
- Commitment to achieving high delivery standards in all tasks
- Experience working with on-road vehicles is considered an asset

**Note: Pre-employment Drug and Alcohol Testing will be required.**

## Our Commitment to You

### Connecting People with Progress

**Safety Isn't Just a Priority—It's a Value.** Safety is woven into the fabric of who we are and how we operate. It's not a box we check off; it's a commitment that guides every decision we make, every process we implement, and every project we undertake. Because at the end of the day, when we say safety is a value, we mean it's a promise we make to our people, families, and the communities we serve.

**True to Our Word, True to Our People.** Our culture is grounded in humility and authenticity, with a deep commitment to family. We believe in supporting each other, no matter the role or title. When we say we care, we mean it—our actions match our words. Everyone is empowered, valued, and respected, because being 'true to our word' means being 'true to our people.'

**Interesting Projects and Skill-Building Work.** Volker Stevin is known for its ability to take on complex projects of all sizes, from large-scale infrastructure builds to specialized niche developments to highway maintenance and more. This diversity in project scope and complexity means that our employees have access to new opportunities across our family of companies that challenge them to think creatively and develop new skills.

## Join a Team Where People Truly Matter

### About Volker Stevin Highways

Since 1996, Volker Stevin Highways has been committed to keeping Alberta's highways safe and well-maintained. Our teams work year-round on provincial and municipal infrastructure, ensuring that roads, bridges, and culverts remain accessible for everyone. Our commitment to Safety, People, and Performance ensures we get the travelling public where they need to go. Today, we maintain approximately 30% of the provincial road network, covering 18,500 lane kilometres.

The Volker Stevin family of companies includes Volker Stevin Canada, Volker Stevin Contracting, Volker Stevin Highways, Mainline Construction, McNally Contractors, Lakes District Maintenance, H. Wilson Industries, and MidMountain Contractors.
